ECO-FRIENDLY SUPPLIES

ECO HQ

COMMON TERMS EXPLAINED

RECYCLABLE

REDUCE & REUSE

Recycling is the process of breaking down and reusing materials that would otherwise be thrown away. Recycling utilizes existing materials to reduce energy usage, decrease pollution, and conserve natural resources such as wood and water. Repurposing waste products in an effective way helps slowly decrease the landfill sizes and increases air quality.

SUSTAINABLE

RESTORE THE BALANCE

Sustainability is the method of using a resource for environmental benefits without depleting or permanently damaging it. This practice extends the natural life of the resource you're using without negatively affecting the atmosphere or the environment. This practice allows us to maintain the balance of meeting the needs of today's population without endangering future generations.

BIODEGRADABLE

CLEAN & GREEN

Biodegradable refers to the ability of a material to be naturally broken down by living organisms. Biodegradable products release significantly less amounts of greenhouse gases because the materials break down into nontoxic elements without causing a negative impact on the environment. The process of manufacturing biodegradable packaging helps increase energy conservation and reduce waste.

CARBON FOOTPRINT

PROTECT THE PLANET

In the foodservice industry, an establishment's carbon footprint is impacted by its use of greenhouse gases, which are emitted by generated waste, water consumption, and transportation. Restaurants can minimize their carbon footprints by reevaluating their energy consumption, using sustainable packaging, and reducing waste.

COMPOSTABLE

ZERO WASTE

Compostable materials disintegrate into natural elements in a compost environment. Commercial composting facilities use ideal amounts of sunlight, temperature, and moisture to create an environment that rapidly breaks down materials. Always check the materials your composting facility accepts before sending your waste. Go green by requesting a composting bin from your local facility.

BPA-FREE

CHOOSE THE HEALTHY ALTERNATIVE

BPA-free refers to a material made without the chemical Bisphenol-A, which can cause harmful effects on humans. Containers with BPA that have been exposed to heat can leach toxic plasticizers into foods and beverages. The production of BPA can also leach chemicals into soil and water, contaminating the crops we grow and the food we eat.

BPA Free

MADE WITH THE EARTH IN MIND

OUR MISSION

Restaurantware is committed to developing innovative products that promote and encourage environmental sustainability.

SUSTAINABLE SOLUTIONS

Our journey to inspire widespread change throughout the foodservice industry begins with our customers. We provide an expanding collection of recyclable, compostable, and biodegradable products for businesses that are looking for ways to reduce their carbon footprints.

DESIGNED BY CHEFS FOR CHEFS

EAT WITH YOUR EYES

We believe the better your food looks, the better it tastes. It's important to us to ensure that you won't have to sacrifice on style to be sustainable.

ENHANCING THE EXPERIENCE

Our products are designed to help chefs deliver beyond the ordinary. From disposable tableware to foodservice packaging, our innovative and sustainably-focused products are engineered to improve the guest experience.

HERE TO HELP YOU SUCCEED

CUSTOMER SUPPORT

Our customer support team has one goal: to simplify your experience. Whether you prefer to reach us via phone, email, or through the chat feature on our website, we're always ready to answer your questions and provide assistance.

SAMPLES AVAILABLE

Need to see the products before you place your order? No problem. Order up to 15 different samples for a flat fee of \$14.99. Upon placement of a corresponding order, your account will be credited with reimbursement for this fee (conditions apply).

CUSTOMIZE YOUR PRODUCTS

Better branding means better business. Work with our in-house design team to create products with your business's logo, colors, and other custom elements (MOQs and other restrictions apply).

98.4% IN STOCK

It's important for us to provide consistent and reliable solutions for your business. With an average of 98.4% of products in stock, we're able to achieve that goal.

FAST SHIPPING TO STREAMLINE ORDERING

SAME DAY SHIPPING

Orders placed before 3PM CST are processed and shipped the same day.

FREE SHIPPING

Enjoy free shipping on orders of \$500+. Applies to orders shipped via FedEx Ground only. Cannot be combined with any other promotion.

MIDORI PALM PLATES

Restaurantware's palm leaf plates are manufactured with only hand-collected palm leaves, heat, and water. Ideal for all kinds of hot or cold foods, our palm leaf tableware is commercially compostable, biodegradable, and chemical-free.

- Designed to hold heavy meals without bending or breaking
- Crafted from naturally fallen palm leaves
- Available in a variety of shapes and sizes

HEAT-RESISTANT COMPOSTABLE FLATWARE

Hot and Cold
Friendly

Compostable

Derived from cornstarch, our heat-resistant CPLA flatware is 100% commercially compostable, making it the perfect addition to the rest of your eco-friendly tableware.

- Ideal for hot and cold foods, the special crystallized design makes our CPLA flatware heat-resistant up to 180°F
- Break-resistant construction and easy-to-grip handles promote a comfortable dining experience

SUGARCANE/BAGASSE TAKE OUT

Hot and Cold
Friendly

Compostable

Biodegradable

Microwave Safe

Crafted from all-natural sugarcane fibers, our bagasse take out supplies are commercially compostable and fully biodegradable for a sustainable way to package meals. Our bagasse take out containers are naturally grease-resistant to prevent dressings, sauces, oils, and other liquids from seeping through.

LIDS MADE FROM PLANTS

Custom
Printing

Hot and Cold
Friendly

Recyclable

Compostable

Our PLA plastic Coffee Cup Lids are created from plants - not petroleum-based oils or fossils fuels - and are fully compostable in commercial compost facilities. Available in two sizes, these nature-friendly PLA plastic lids are compatible with our entire collection of paper coffee cups.

- Over 25 billion coffee cups are thrown away every year in the United States
- This adds up to 500 million pounds of waste inundating landfills yearly!

The good news is, if we work together, we can put an end to the non-recycled coffee cup crisis!

- Our **RECYCLE ME** coffee cup bottoms actively urge consumers to make the right choice
- This friendly reminder can be found on our Ripple Wall, Double Wall, and Single Wall coffee cups

COFFEE CUPS & SLEEVES

Constructed from unbleached paper, our coffee cups are manufactured without harmful chemicals or dyes to provide a sustainable way to serve hot beverages. Plus, their natural design is fully recyclable to ensure consumers can dispose of coffee cups in an eco-friendly way.

- Natural paper is fully recyclable
- Reinforced seams create a leak-resistant seal

FOODSERVICE PLASTIC & FOIL WRAPS

Unlike some other brands, Restaurantware's plastic wrap is BPA-free and manufactured without toxic plasticizers. In addition, it has been specifically designed to be microwave-safe and will never leach harmful chemicals into foods as you reheat them.

- BPA-free construction won't contaminate food with harmful phthalates
- Keeps hot and cold foods fresher for longer

ECO-FRIENDLY CAN LINERS & REUSABLE BAGS

Bio-Based Composition

Made with ecovio®, a combination of biodegradable synthetic polymer and plant-based PLA bioplastic, RW Eco Biodegradable Can Liners provide a 100% compostable and renewable alternative to traditional petroleum-based plastic can liners.

By using our eco-friendly can liners, which break down in only a few weeks at a commercial composting facility, you're making a lasting impact that will redirect waste, preserve fossil fuels, protect marine life, and reduce plastic contamination in rivers, oceans, and waterways.

High Performance

Each of these biodegradable can liners, manufactured with ecovio®, can withstand the same amount of weight as conventional plastic can liners.
