FUTURA 

Collection

FUTURA

Futura is a tamper-evident takeout and catering container line for delivery kitchens, caterers, and grab and go programs

Delivery Orders

An order leaves the kitchen sealed and the guest can see nothing was opened on the way.

Catered Drop-Offs

A multi-course spread goes out to an office or an event with each component kept apart until it is served.

Grab and Go Retail

A cold case gets stocked in the morning and still reads full and sealed at the end of the day.
