ECO-FRIENDLY

T-SHIRT BAGS, CAN LINERS & REUSABLE BAGS

Biodegradable Compostable

Bio-Based Composition

Made with ecovio®, a combination of biodegradable synthetic polymer and plant-based PLA bioplastic, RW Eco Biodegradable Can Liners provide a 100% compostable and renewable alternative to traditional petroleum-based plastic can liners.

By using our eco-friendly can liners, which break down in only a few weeks at a commercial composting facility, you're making a lasting impact that will redirect waste, preserve fossil fuels, protect marine life, and reduce plastic contamination in rivers, oceans, and waterways.

High Performance

Each of these biodegradable can liners, manufactured with ecovio®, can withstand the same amount of weight as conventional plastic can liners.

Washable Paper Bags

Our Washable Paper Bags present an ecologically sustainable alternative to leather goods and traditional paper or plastic bags. Crafted from innovative paper that is machine washable and dishwasher, these reusable bags are 100% vegan and environmentally-friendly.
