

Restaurantware®
SUSTAINABLE SOLUTIONS

**SURE
GRIP**

Collection

Sure Grip is a color-coded cutting board line for restaurant kitchens, commissaries, and catering prep.

Cross-Contamination Control

Raw protein, produce, and cooked food each stay in their own lane through a full prep shift.

Allergen Orders

A gluten or nut allergy ticket comes in and the kitchen preps it separately without stopping the line.

Training and Inspection

A new prep cook knows where each task belongs on day one, and the system still reads clearly when an inspector walks the kitchen.
