

Restaurantware®
SUSTAINABLE SOLUTIONS

Authentic Japanese cast iron teaware built for the ritual and craft of tea service. Capacities run from 2 oz tasting pours to 43 oz sharing teapots, with enameled interiors that hold heat through a full service.

Cast Iron Tea Cups

Hobnail and smooth round cups in 2 oz to 5 oz sizes give operators the right pour for tasting flights, single service, and full tea courses.

Cast Iron Teapots

Round, square, and hobnail enameled bodies from 20 oz to 27 oz cover two top service through small group pours.

Artisan Teapots and Coasters

Wood handle Osaka and cherry blossom teapots anchor the table as statement pieces, with cast iron coasters to protect the surface.
